

FIRST EDITION.

11.30 P. M.

"Hunt the rascals down" will become as historical as "let no guilty man escape."

AMERICA'S great actor, Booth, is exhibited in England and has created a great wave of enthusiasm.

WHEN newspaper men write "Honorable" before Bill Barnum's name it must be taken as a pure specimen of genuine irony.

FORNEY has "flopped" for good. He says his paper will be an independent democratic journal, retaining its eclectic features.

IF you want good, reliable news, do not fail to take either our daily or weekly edition. In either case you get ten times the value of your money.

DR. MARY WALKER says she doesn't wear men's clothes—she wears her own clothes. There's a moral in that, but ten to one you don't see it.

OLD maids are described by a poetical writer as "embers from which the sparks have fled." Of course there can be no "flames" around such quarters.

THAT city of all iniquities, Chicago, is now putting soap-stone in its butter. This almost fits that Biblical quotation about asking for bread and getting a stone.

IT is an interesting fact that three animals, viz: the giraffe, eland and kangaroo are totally dumb and never make a sound, even in the agonies of death.

THE advisers of Gen. Garfield will soon settle the question whether or not the republican party is a sectional one. We await the decision with some degree of impatience.

"GARFIELD will be an old-fashioned president" remarks an exchange, and an old-fashioned president will split southern democracy into a thousand fragments before four years expire.

A number of eastern gentlemen are raising a fund the income of which is to be given to the oldest living ex-president. This is for Gen. Grant's benefit as his income is no more than \$4,000 a year.

DURING the last few days Bill Barnum was busy in reading the following dispatch to all parts of the country: "The letter is authentic. It is in Gen. Garfield's own handwriting. Denial is worse than useless."

LIBBY prison whose name shall go down through history all covered up with obliquity and the anathema of the widows and orphans of the republic has been sold to a young capitalist of Richmond for \$6,700.

THE talk about casting the electoral vote of the south for Garfield is only a new application of "tiffy." It can do no good, no harm, as far as that is concerned. The south must show its liberalizing spirit in some more substantial way.

THE Courier Journal says: "The ticket represented nothing beyond a few glittering generalities and flabby sentimentalities." This is another instance of that "hind-sight" for which the alleged democratic party is so justly noted.

MR. A. W. HAWKINS has resigned the editorship of the Washington Republican. The Republican is the only republican paper in West Tennessee, and is as bright, and newsy and orthodox a sheet as comes to our exchange table.

IT is stated that a number of patriotic gentlemen had made up a purse to be offered as a reward for the recovery of the alleged democratic party that strayed or was stolen from sweet Billy Barnum's mule stables on the day of the 2nd of this month.

IT must be hard on Wade Hampton to see his letters hid away out of sight in the newspapers where they can be discovered hobnobbing with patent medicine "ads." and the like. Senator Wade has ruined himself. The position of leader was too much for him.

THE faculty of Yale has decided that the Kappa Sigma Epsilon and the Delta Kappa secret societies of that college shall be disbanded. These societies are chartered and have numerous branches and thousands of members all over the United States.

THE Nashville Banner hopes Mrs. Garfield will follow the example of Mrs. Hayes on the temperance question. This is an official utterance can only mean to inform the new administration that Tennessee democrats are still untrifled and unconciliated and intend to remain so. We are sorry.

In speaking of the distinguished gentleman of our city "making an excellent republican," the CHRONICLE only means that his well known ideas are practically those of the republican party. In this connection we might state that there are many others in Knoxville, but they are politically much too great towards to admit it.

TELEGRAPHIC.

OUTLAWS IN TEXAS.

GALVESTON, Nov. 17.—The News-Dallas special says the city was thrown into great excitement yesterday by the arrival of forty armed farmers bringing the body of a dead man stating that Marcus Johnson, a planter, was met twelve miles from the city by two masked men who knocked him down and robbed him. A party went out in pursuit and five other farmers were met who had been robbed and joined in pursuit. The outlaws were overtaken within three miles of Dallas, when a general fight occurred. One robber, recognized as Adam Curley, of Nashville, Tenn., was killed. The other escaped with eighteen buckshot in his body. Eleven farmers are known to have been robbed. Both men are believed to have been implicated in the robbery of Adams & Leonard's bank recently.

RAILROAD DISASTERS.

GALVESTON, Texas, Nov. 17.—A News-Louisville special says a construction train on the Dallas and Wichita railroad went through a temporary bridge over Hickory creek last evening. Thirteen laborers were wounded. Three have since died. Physicians from Dallas reached the scene by a special train and would not allow the wounded to be moved during the prevailing snow and sleet. Half of the wounded will die.

CINCINNATI, Nov. 17.—The passenger train on the Louisville Short Line railroad, due here at 8 p. m., yesterday evening, was wrecked near LaGrange, Ky., by running over a cow. None of the passengers were hurt.

A SCHOONER LOST.

RICHMOND, Va., Nov. 17.—Information was received to-day at the custom house in this city that Captain Wesley Robinson and crew of the schooner W. H. Morgan, of New York, reached West Point yesterday. Captain Robinson reports that on Friday night last, at half past 12 o'clock, his vessel was run into and sunk by the steamer San Salvador off Wolf Trap light, Chesapeake bay. The steamer kept on her course, rendering no assistance. The schooner had a cargo of 14,000 bushels of wheat, and was bound from Baltimore to Providence. Everything, including the vessel's papers, was totally lost.

VIRGINIA.

DANVILLE, Nov. 17.—The cases of Judge Coles, late county judge of Pittsylvania county, Judge Bouldin, of Charlotte county, and other Virginia county judges, indicted for not putting negroes on their juries, came up this morning in the United States district court, Judge Alexander Rives presiding, now in session here, and the court directed a nolle prosequi to be entered in each case. The court room was crowded and the announcement of the court's order was received with surprise and applause.

INTER-STATE CONVENTION.

NEW ORLEANS, Nov. 17.—The Mississippi valley inter-state convention for the improvement of the commerce and navigation of the Mississippi river and its tributaries met yesterday in the hall of the house of representatives. George H. Shields, of Missouri, was elected temporary chairman and addressed the convention.

THE MOREY LETTER CASE.

NEW YORK, Nov. 17.—The grand jury are in session to-day, considering the Morey letter case. S. Morey, Daniel T. Ames and Col. Rockwell, all of whom were witnesses in the preliminary examination of Kenward Philp, were in attendance and gave their testimony.

COLD WEATHER.

NEW YORK, Nov. 17.—Very cold weather is reported from the west. The thermometer gives the subjoined indications: Cheyenne 16° below zero; Denver 6° below zero; North Platte 3° below zero; St. Louis 14° above zero; Chicago 13° above zero.

FIRE.

GOSHEN, IND., Nov. 17.—The works of the Goshen Manufacturing company and several other buildings and manufactories were destroyed by fire yesterday. Loss \$40,000.

MINOR DISPATCHES.

NEW ORLEANS, Nov. 17.—The steamship Delamare, from Rio Janeiro, October 16th, for New Orleans, with 250,000 bags coffee has not yet arrived. Fears are entertained for her safety.

LONDON, Nov. 17.—Haulan has withdrawn from the national regatta.

FOREIGN.

LONDON, Nov. 17.—A Rome dispatch to Reuters' telegram company says: "The pope has signed a brief appointing Cardinal Jolani to be pontifical secretary of state. It is expected in clerical circles that the appointment will mark a great change in the policy of the Vatican. The pope approved the views of the Irish bishops as stated in a memorial explaining their conduct in regard to the agitation in Ireland and it is expected he will shortly

make a public announcement to that effect. In consequence of the compromise arrived at with Russia, the Vatican will immediately take action with a view of filling the vacant sees in Poland and in making appointments, will consider the claims of persons recommended by the Russian government.

Humbugged Again.
I saw so much said about the merits of Hop Bitters, and my wife who was always doctored, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months use of the Bitters, my wife was cured and she has remained so for eighteen months. H. T. St. Paul, Pioneer Press.

THE CENSUS WORK.
It will be completed in time for action by the President Congress.

Washington Special to the Evening Commercial. Superintendent Walker says that the work of compilation of the results of the labors of the enumerators has sufficiently advanced, especially with reference to population, to enable him to say with perfect safety that this branch of the labor of his office will be completed by January 1st. The statistics of population will be in such shape that should congress determine to revise the apportionment of representatives based on the census of 1880, he can furnish authoritative information concerning every portion of the country to the committee charged with this subject. The work of revision, he says, now going on in St. Louis, under the auspices of the people's committee, will not make any material delay, as he anticipates from Professor Woodward such an active performance of his work that the returns will be completed and submitted to the chief office within thirty days. There are other localities of minor importance which have been reviewed by special agents, but returns in these have been made, leaving St. Louis the only one in the United States not yet finally disposed of. With respect to enumeration, representatives from different sections in the northwest and south have been in correspondence with the census office and members of the census committee, urging a disposition of the apportionment at the approaching session of congress, on the ground that in all the states holding biennial sessions the legislature will be in session for an adjustment of their districts for the purposes of national representation to the new ratio, whatever that may be. This question is bound to excite considerable discussion. The house, with its present 293 representatives, has sometimes been regarded as unwieldy for the prompt dispatch of public business, and repeated intimations have been given by the leaders on both sides of a purpose to reduce the aggregate representation by increasing the ratio. The minimum number suggested is two hundred and forty, and the maximum the present figure, and an increase of the ratio so as not to materially change the representation in the states where the population has kept pace with the progress of years, and only reducing it in such portions of the country where development has kept less rapid pace and consequently presents less important considerations for even the present ratio. In the states where the interests are important it is claimed the representation should practically remain unchanged, taking the loss relatively off sections where the population is sparse and scattered and industry more diffused.

THE NEW SOUTH.
A Rosy Future for the Sunny South.

As sketched by a Whilom East Tennessean, now a Hoosier.

Madison (Ind.) Courier.
Mr. Geo. B. Cowlam, now a citizen of Madison, who moved here this fall from East Tennessee, with his family, was passing along West street this morning, when a Courier reporter caught him on the fly. Since Tennessee has elected a republican governor, and Houk and Pettibone and Moore, all stalwart republicans, to congress, and probably a republican legislature, Mr. Cowlam's face has been wreathed in smiles, and he chuckles and chuckles like an old hen with a big brood of chickens.

"What's the south going to do about it?" asked the reporter.

Mr. C.—"Squat. Squat right in their tracks. Why, the most wonderful thing about this campaign, to both north and south, ten years hence, will be that the democrats carried a single northern county. It will be hard for the south to realize that a set of men smart enough to build up such a country as the north is to-day, were ever so foolish as to allow such a crowd as the democratic party even to hope for the possibility of success."

Rep.—"Will the south remain solid?"

Mr. C.—"Not much! No sir, that thing is over. Before congress adjourns for the Christmas holidays the solid south will be shivered into a thousand fragments."

Rep.—"Then why did they fight so hard?"

Mr. C.—"Well, they are not such bad fellows, according to the light they have. They are not half such fools as they have given us some reason to think they were; and don't begin to be such fools as they took us to be. No, not near it! The trouble with them is their cursed old system of slavery made their country poor and ignorant by degrading and thus keeping out free labor, and as a result of it their system is a hundred years behind. Their whole civilization is dwarfed and stunted by it. They had it up to the war, and as soon as that was over Andy Johnson's fool policy set them off on a wild goose chase after political control of the country, and that has kept them all as busy as the devil in a gale of wind up to last Tuesday. They haven't had much time to build up the south since Tuesday, or catch up with the north, but the south is going to be a great country, and don't you forget it."

Rep.—"When?"

Mr. C.—"When?" Why, right off. In the next ten or fifteen years the south is going to grow faster than any other part of the country will or ever has grown."

Rep.—"What makes you think so?"

Mr. C.—"Why, because the 'solid south' is busted up. For fifteen years every material interest of the south has been sacrificed by the insane policy of the Hamptons, Lamars and Hills, who have been unable to make the south think the northern democracy could turn the scale. The old leaders can't fool them with that rot any longer. They must lead off in a forward movement at once, or new men will replace them. They will be replaced anyhow, two years hence. But recollect that in all these fifteen years the industries of the south have been slowly growing, swelling and gathering strength in their confinement, and now that the 'solid north' has jolted the bands a little, the force from the inside will shiver the thin shell of the 'solid south' into a million fragments. Yes, sir, the jig is up, and if I had a million dollars to invest I would put every dollar of it into the south. Just think of it: In the first ten years that the north was free from the rule of the autocratic statesman who used to govern the whole country and now govern the south, the northern states doubled their wealth, and in the next ten years, just now ending the north has become a great empire complete in all its parts, way ahead of anything else in the world. Now let the south be free from these fellows ten years and you'll see a growth in wealth and population that will astonish us all. Why the south is just bursting with natural wealth. They have got everything, climate, soil, timber, water power. Everything but plenty of capital, enterprising men, and the civilization of the nineteenth century. They are going to get the 'missing ingredients' now, right away, and then—clear the track!"

Rep.—"Cotton going to be king again?"

Mr. C.—"Not by a — 329 sight. No, sir; they are raising now about as much cotton as the world needs. It's an expensive and exhaustive crop and over-supply would break the price and all the planters with it. No, they are going into commerce, mining, manufacturing—diversified industries, a division of labor. Railroads, coal, iron, manufactures of cotton, grazing and sheep farming—the 19th century is going in there and its going to blossom like the rose all over the south."

THE NEW SOUTH.

A Rosy Future for the Sunny South.

As sketched by a Whilom East Tennessean, now a Hoosier.

Madison (Ind.) Courier.

Mr. Geo. B. Cowlam, now a citizen of Madison, who moved here this fall from East Tennessee, with his family, was passing along West street this morning, when a Courier reporter caught him on the fly.

Since Tennessee has elected a republican governor, and Houk and Pettibone and Moore, all stalwart republicans, to congress, and probably a republican legislature, Mr. Cowlam's face has been wreathed in smiles, and he chuckles and chuckles like an old hen with a big brood of chickens.

"What's the south going to do about it?" asked the reporter.

Mr. C.—"Squat. Squat right in their tracks. Why, the most wonderful thing about this campaign, to both north and south, ten years hence, will be that the democrats carried a single northern county. It will be hard for the south to realize that a set of men smart enough to build up such a country as the north is to-day, were ever so foolish as to allow such a crowd as the democratic party even to hope for the possibility of success."

Rep.—"Will the south remain solid?"

Mr. C.—"Not much! No sir, that thing is over. Before congress adjourns for the Christmas holidays the solid south will be shivered into a thousand fragments."

Rep.—"Then why did they fight so hard?"

Mr. C.—"Well, they are not such bad fellows, according to the light they have. They are not half such fools as they have given us some reason to think they were; and don't begin to be such fools as they took us to be. No, not near it! The trouble with them is their cursed old system of slavery made their country poor and ignorant by degrading and thus keeping out free labor, and as a result of it their system is a hundred years behind. Their whole civilization is dwarfed and stunted by it. They had it up to the war, and as soon as that was over Andy Johnson's fool policy set them off on a wild goose chase after political control of the country, and that has kept them all as busy as the devil in a gale of wind up to last Tuesday. They haven't had much time to build up the south since Tuesday, or catch up with the north, but the south is going to be a great country, and don't you forget it."

Rep.—"When?"

Mr. C.—"When?" Why, right off. In the next ten or fifteen years the south is going to grow faster than any other part of the country will or ever has grown."

Rep.—"What makes you think so?"

Mr. C.—"Why, because the 'solid south' is busted up. For fifteen years every material interest of the south has been sacrificed by the insane policy of the Hamptons, Lamars and Hills, who have been unable to make the south think the northern democracy could turn the scale. The old leaders can't fool them with that rot any longer. They must lead off in a forward movement at once, or new men will replace them. They will be replaced anyhow, two years hence. But recollect that in all these fifteen years the industries of the south have been slowly growing, swelling and gathering strength in their confinement, and now that the 'solid north' has jolted the bands a little, the force from the inside will shiver the thin shell of the 'solid south' into a million fragments. Yes, sir, the jig is up, and if I had a million dollars to invest I would put every dollar of it into the south. Just think of it: In the first ten years that the north was free from the rule of the autocratic statesman who used to govern the whole country and now govern the south, the northern states doubled their wealth, and in the next ten years, just now ending the north has become a great empire complete in all its parts, way ahead of anything else in the world. Now let the south be free from these fellows ten years and you'll see a growth in wealth and population that will astonish us all. Why the south is just bursting with natural wealth. They have got everything, climate, soil, timber, water power. Everything but plenty of capital, enterprising men, and the civilization of the nineteenth century. They are going to get the 'missing ingredients' now, right away, and then—clear the track!"

Rep.—"Cotton going to be king again?"

Mr. C.—"Not by a — 329 sight. No, sir; they are raising now about as much cotton as the world needs. It's an expensive and exhaustive crop and over-supply would break the price and all the planters with it. No, they are going into commerce, mining, manufacturing—diversified industries, a division of labor. Railroads, coal, iron, manufactures of cotton, grazing and sheep farming—the 19th century is going in there and its going to blossom like the rose all over the south."

And Mr. C. passed on chuckling to think of the good time coming in the sunny south."

MARKETS BY TELEGRAPH.

New York Money Market.
NEW YORK, Nov. 17.—Money, \$1.04 1/16. Exchange, \$1.80. Government, weak and lower: 5s, \$1.01 1/2; 4 1/2s, \$1.11 1/2; 4s, \$1.10 1/2. States, quiet and steady.

New York Cotton Market.
NEW YORK, Nov. 17.—Cotton—net receipts, 399 bales; gross, 17,833 bales. Futures, closing steady: sales, 64,000; November, 10,500; 10 1/2; December, 10,800; January, 10,900; February, 11,000; March, 11,100; April, 11,200; May, 11,300; June, 11,400.

New York Grain Market.
NEW YORK, Nov. 17.—Wheat, 600 bales; uplands, 10 1/2-16; New Orleans, 11 1/2-16; consolidated net receipts, 11,586 bales; exports to Great Britain, 5,215; France, 2,529 bales; coast net, 4,412 bales.

General Market.
NEW YORK, Nov. 17.—Southern flour firm and fairly active; common to fair extra, \$5.10-5.60; good to choice do., \$5.65-6.00. Wheat, fair better, closing firm with moderate export business; trade largely on speculative account; ungraded red, \$1.04 1/2; 12 1/2; Corn, heavy and lower with more active trade; ungraded, 53-52. Oats, without important change. Coffee, steadier and quiet. Rice, 11 1/4-1 1/2. Sugar, firm and moderate demand; centrifugal, 8c; fair to good refining, 7 1/2-7c; refined, fairly active. Molasses, unchanged and quiet. Hops, active and firm. Wool, quiet firm and moderate business; Texas, 14-20c. Pork, steady, with better export inquiry, \$14.50-14.75; middles, quiet and firm; long clear, 7 1/2c. Lard, about 6c higher and more active, \$8.75-8.77 1/2.

Cincinnati Market.
CINCINNATI, Nov. 17.—Flour, strong; family, \$5.05-5.25. Wheat, firm; No. 2 red winter, \$1.08 1/2. Corn, strong and higher, 50 1/2. Oats, quiet, 32 1/2. Pork, dull, lower 13 1/2. Lard, fair demand, prices firmer, \$8.10-8.12 1/2. Bulk meat, fair demand; shoulders, 4 1/2. Bacon, easier; ribs, 7 1/2. Whisky, active and firm, \$1.09. Sugar, steady; hards, 9 1/2-10 1/2. Hogs, quiet; common, \$3.55-4.25.

Louisville Market.
LOUISVILLE, Nov. 17.—Flour steady; extra family, \$4.00-4.50. Wheat, easier; 95-100. Corn, quiet and steady, 40c. Oats, fair demand and firm, 30c. Pork, dull and nominal, \$14.50. Lard, nominal. Bulk meats, steady; sides, \$7.85. Bacon, steady; ribs, 8c. Hams, sugar-cured, 10c. Whisky, active and firm, \$1.09.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvelous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates to resort to it as a remedy to employ to relieve the distress and suffering peculiar to pulmonary affections. **AYER'S CHERRY PECTORAL** always affords instant relief, and performs rapid cures of the most distressing and chronic diseases of the lungs.

As a safeguard to children, and the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Resident Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

Prepared by **Dr. J. C. AYER & CO., Lowell, Mass.,** Practical and Analytical Chemists, SOLD BY ALL DRUGGISTS EVERYWHERE.

SALESMEN WANTED. We want GOOD MEN TO SELL CIGARS TO DEALERS. \$105 Samples Free. Cut this Notice Out. Send it with your application, also a 3c Stamp to **JOHN S. FOSTER & CO.,** P. O. Box 127, Cincinnati, Ohio.

STEAM ENGINES. STATIONARY & PORTABLE—ALL SIZES. Awarded Medal at Centennial Exhibition for Superiority. **ALMYER MANUFACTURING CO.,** CINCINNATI, O.
